Sir:

On December 13, 2004, Applicant filed an Information Disclosure Statement in the above-captioned application. In the Information Disclosure Statement, Applicant brought to the Examiner's attention, *inter alia*, the following document:

European Patent Application Publication No. EP 1 001 584 which corresponds to

U.S. Patent Publication No. 2002/133573

With the above-noted Information Disclosure Statement, Applicant also submitted a Form PTO-1449. However, the Form PTO-1449 listed the above-noted document incorrectly. In particular, U.S. Patent Publication No. 2002/133573, was erroneously cited on the PTO-1449 forms as U.S. Patent Publication No. 2002/133373, instead of U.S. Patent Publication No. 2002/133573

To complete the record, Applicants assume that despite this typographical error, the correct document (i.e., U.S. Patent Publication No. 2002/133573) was considered by the Examiner during consideration of all of the cited documents, at least because a copy of the correct document was listed in and submitted with the above-noted Information Disclosure Statement.

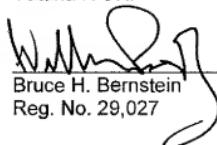

Applicant has correctly listed the above-noted document on the attached PTO-1449 Form, and respectfully request that the Examiner initial the appropriate space on the attached Form and return a copy of the completed Form to the Applicant to confirm consideration of the correct document.

Applicant also provided an English language abstract of a cited Japanese patent publication, and cited the same on the Form PTO-1449. Although all of the patent documents (including the Japanese document) were initialed as having been considered, the English language abstract was crossed off on the Form PTO-1449. To complete the record, Applicant assumes that the English language abstract of the Japanese patent publication was considered by the Examiner during consideration of the underlying document.

Should the Examiner have any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.
